Here and There
WILL GET BONUS
 Halifax, The Atlantic Roster announced today that the employees of the Royal Bank of Canada, in the sum of \$500, will receive a bonus of 20 per cent on their salaries, in consideration of the British autonomy of the foundation of the bank.
Up to the Railways to Explain
 Because Canadian railways have been slow to handle the 1918 wheat crop there has been loss of that cereal shipment to foreign countries. The loss of the wheat has been the cause of a year ago. It is estimated that the result of the loss of the wheat will be to cost the extent of four millions. This is not a negligible amount in the part of the railways and calls for some explanation.

OFF TO AUSTRALIA
 London, The "Argonaut" "Kingsport" under command of Capt. Walker and carrying a crew of five, left the Atlantic for Australia yesterday on the first leg of a journey to Australia.
WHEAT FOR STATES
 Winnipeg—When the embargo is raised on Canada wheat it is anticipated that large quantities will flow across the border to the United States. The border are paying \$2.50 for grain that goes for \$2.10 in the United States under the Canadian government arrangement. This Canadian railway refuse to permit their railroads to transport wheat when it will through with live stock, and will not allow the grain to be sent to the United States. The property of the government wheat board and is sold to England. Canada has just one hundred million bushels for export.
 Flour also goes in from Canada. Here the millers are getting their wheat from the government at \$2.10, while the U. S. millers are paying \$2.10. It is expected there will be a big trade for Canadian flour to the States under the said arrangement.

EX-KAISER TO BE TRIED
 London, The British government has announced that the Kaiser will be tried in London early in the new year, and is completing necessary arrangements, says the Mail, which adds that as soon as the allies have signed the peace treaty, a special request for the extradition of the ex-Kaiser will be presented to parliament.
 "There is no room for doubt that the Kaiser will be completely with," the newspaper adds. Ratification of the treaty is confidently expected in a few weeks.
 A meeting of those interested in the organization of a school district is to be held at 8:30 p.m. on Dec. 1st, at the home of J. Greenway.
 Mrs. G. Smith, recalls that Christmas is only four weeks away.

Investments and Profits
 Almost anyone would consider an investment that pays an annual profit of 20 per cent, an extraordinary and highly desirable. Such an investment if put on the market for sale would be picked up quickly at a price considerably above par.
 People who know well that an investment should be made more than pay for itself in three to five years, thus paying a profit of from 20 to 35 per cent. Every farmer has hundreds of dollars invested in implements that require protection from the weather. By investing a small sum in a stock he can prolong the life of the implements and thus make a good profit on his investment.
